

ITD ALLIANCE

GLOBAL ALLIANCE FOR INTER- AND TRANSDISCIPLINARY RESEARCH AND EDUCATION

Become part of the community!

www.itd-alliance.org

OUR STATED GOAL

- link networks, associations, institutions, and individuals with shared interest in inter- and transdisciplinary research
- for addressing complex problems and questions, including real-world societal challenges

OUR KEY MOTIVATIONS

- support those who move beyond highly specialized reductionist disciplinary efforts across fields
- draw on and complement existing resources
- refine, develop, and evaluate inter- and transdisciplinary epistemologies, theories, methods, interventions

OUR BACKGROUND

The idea to found the ITD Alliance was born at the International Transdisciplinary Conference 2017 with co-conferences in Chile, Mexico, Uruguay, and New Zealand, after the members had met regularly since 2008.

OUR OFFER TO NETWORKS AND INDIVIDUALS

An **interconnected network** to draw on and complement existing resources while explicitly refining, developing, and evaluating inter- and transdisciplinary epistemologies, theories, methods, interventions. ITD Alliance will **promote research, education, and training** by supporting regular networking opportunities and ongoing exchanges across science, social science, humanities, and arts.

The ITD Alliance will provide a vehicle to **increase visibility** and **coalesce work** currently dispersed across continents. In this way, ITD Alliance will serve to catalyze greater collaboration focused on **societal problem solving** and understanding of complex issues. Its existence will also contribute toward achieving the **United Nations' Sustainable Development Goals**.
