

What are the main topics of interest for you regarding institutionalization of ID/TD and learning between institutions?

15 responses

Short-term research/teachers exchanges

Collaborative distance courses

How to become recognised and powerful players in research and funding policy

A pool of researchers to contact for PhD committee/evaluation/defence

Understanding the diverse models of institutionalization of ITD, their benefits and challenges

For many (i.e. not senior leadership), this will happen across departments and schools. I'd like to know what collaborative opportunities there are for staff and students.

How to deal with the tension between TDR (aiming towards social-ecological transformations) and 'excellent research' (aiming at outstanding, often disciplinary efforts)?

This is what I meant with my questions about engaging actively with other regional nodes, and also creating a space at the conference.

How to effectively facilitate and enable encounters in between different research fields at an institutional level.

What are the main topics of interest for you regarding institutionalization of ID/TD and learning between institutions?

15 responses

EU-level research schemes that explicitly support ID/TD and require collaboration across countries and institutions;
Real-world labs

teaching/training career paths/opportunities (implementing DORA) new international recognized standards

How to build truly interdisciplinary master's/bachelor's programs and assess the learning outcomes

Collaborative research projects. People tend to work in existing consortia. How to join one as an early career researcher

Governance of TD, what works/what needs to be in place, what doesn't work and also the monitoring and evaluation of TD, also perceptions and practice of TD

How to train the PhD supervisors to understand the value of interdisciplinarity and help them in their supervising work

What formats of interaction would you prefer for learning for and between ID/TD institutions?

18 responses

Meetings of scholar-practitioners

Online synchronous and asynchronous

encourage members of institutions to work in working groups

Short in-person visits

Dialogue between institutions

Alternative conference formats (unconference, Open Space, lab formats)

Online, asynchronous. We could have a blog post series in i2Insights

The opportunity to advertise specific collaborative opportunities my department is interested in being involved in, and to contact people with similar interests directly.

Short Teams benchlearning sessions, sharing of thoughts and best practices in them, open discussions

What formats of interaction would you prefer for learning for and between ID/TD institutions?

18 responses

Networkmeetings virtuale

in conjunction with bigger events, e.g. ITD conference

interactive formats i.e. online meetings or in-person

Multimedia online spaces with interactive features

site visits

to start: Maybe a coffee-break meeting, like the early carrees have, among people in leading position (institutional and individual members) to identify joint issues

Maybe a virtual notice/discussion board related to the conference for advertising interest.

Apart from Working Groups, we could have kind of pop-up webinars/sessions about topical issues with open invites

Local/regional ID/TD circles (F2F) that interact with each other online

9

What topic or activity would motivate you most to become involved in learning for and between ID/TD institutions?

6 responses

Sharing of best practices in promoting ID/TD culture at organizational level / Anne Salmi

Being employed as a teacher right now, smth related to teaching ITD groups would be relevant. A workshop, a collaborative project, collaborative teaching

(change) leadership/management of institutions

Questions of career development and support from an institutional point of view

Strategic collaboration such as joint degrees hosted by two universities. Module development run with another university. Collaboration on a student ID/TD journal. Research events bringing staff together

How to become more powerful
